ISBN 978-1-218-90758-7  
400 pages 7.375 x 9.125 in.  
Over 100 hundred breeders  
Four Pages per breeder  
Fifteen 15 Countries  
750 high resolution images  
Retail value \$50.00

Rose Hybridizers, professional and amateurs, have been so active that an additional third volume in the Rose Atlas trilogy became necessary to chronicle and do appropriate justice to their contributions. Often stated, reference works are established as key legacies to help future generations to admire and learn from the past. Progress in rose evolution has been aided in the most part by the contributions of a plethora of amateurs becoming a pivotal force to showcase rose hybridizers for their ingenuity demonstrating depth of their passions.

Planning process required guidelines to govern the selection of breeders to remain within the assigned 400 pages. Selections for this international group of over hundred breeders was a difficult task. Researching the available literature from existing large databases compiled by the America Rose Society and HelpMeFind were invaluable on parentages and their ancestors.

More importantly, the passion and dedication of the relatively small clan of hybridizers is guaranteed to expand in their combined quest providing new varieties to improve our daily lives growing roses!

### AUSTRALIA
